

## Torx Countersunk Chipboard Screws

General purpose wood screws with a Torx drive; also known as star, 6 lobe, and hexalobular internal. The torx drive is designed to prevent "cam out", which makes them ideal for use with modern drill/drivers. The countersunk head is typically used in conjunction with a countersunk hole providing a flush, snag free fit. Please note that the head shape can vary between a countersunk, double countersunk, and bugle shape.

| d   | dk | k    | s    |
|-----|----|------|------|
| 3   | 6  | 1.50 | T 10 |
| 3.5 | 7  | 1.75 | T 10 |
