Westfield Fasteners Product Specification:

JRP Lever Rivet Nut Tool ND120

Product Description

The JRP ND120 is a hand operated rivet nut fitment tool and is designed for use with nuts of thread diameters from M5 to M12.

Featuring a ratchet action, the JRP ND120 is a more heavy duty fitment tool, featuring long ergonomic handles for comfort and to increase the force applied for easier use in application. The strong and slim body of the tool allows for easier access to the fixing point. Table 1 below displays the rivet diameters and materials compatible for use with this tool.

This tool is supplied with M5, M6, M8, M10, and M12 mandrels and heads. Replacement parts are available on our website.

Product dimensions:

- Overall length: 520mm.
- Overall width: 150mm.
- Weight: 1.58kg.
