Westfield Fasteners Product Specification:

JRP Lever Rivet Nut Tool ND80

Product Description

The JRP ND80 is a hand operated rivet nut fitment tool and is designed for use with nuts of thread diameters from M3 to M8.

Featuring a lever action, the JRP ND80 is a light weight fitment tool, featuring long ergonomic handles for comfort and to increase the force applied for easier use in application. The strong and slim body of the tool allows for easier access to the fixing point. Table 1 below displays the rivet diameters and materials compatible for use with this tool.

This tool is supplied with M3, M4, M5, M6, and M8 mandrels and heads. Replacement parts are available on our website.

Please note M8 is to be used with Aluminium rivet nuts only.

Product dimensions:

- Overall length: 365mm.
- Overall width: 125mm.
- Weight: 1.02kg.
